## **DX News**

### **Franz DJ9ZB S.K**

We are very sorry to report that well known DXer and hugely respected operator, Franz DJ9ZB has gone silent key. Markus, DL1AN GDXF Treasurer provided the following sad info:

'Unfortunately, I have to inform you that the honorary president of the German DX Foundation (GDXF) Franz, DJ9ZB gave up the key forever yesterday. This is just a short piece of information so far. We spoke on the phone last week – he sounded well. As soon as we know more, especially regarding the funeral, we will get back to you here. From the entire board: Franz, rest in peace!'

### **CY0S, Sable Island –update**

In the planning stage since 2017, It looks like the Sable Island DXpedition will become a reality in the Fall of 2022. Due to Covid, the Parks Canada Sable Island manager being assigned to a special project and the operational workload of the Sable staff, the DXpedition had to delayed for several years. On Thursday, May 5, we once again received formal written permission to conduct a DXpedition on Sable in the Fall of 2022. The DXpedition team expects to have the exact dates within the next month or so. The team has applied for the call CY0S. The operators for the DXpedition are K4UEE, W0GJ, K5YY, N2IEN, WW2DX, K4ZLE, N2TU, W4DKS and WA4DAN. The team plans to be active on all bands 160-10. <https://www.dx-world.net/cy0s-sable-island-dxpedition-2022/>

## Solar Cycle 25 –update

Let's take a look at closer look at the important numbers:

Predicted SSN: 37.1 — **Actual: 84.1**

Predicted SFI: 84.5 — **Actual: 130.6**

Combine the above in graph format (courtesy SolarHam.com) then we really are way ahead of any predictions.

## DX-World's Land of QSLs

If you're on Facebook you may not yet know of a new DX-World page titled "**The Land of QSLs by Spratley Woody**". Great to report that 1000 members have now joined "**Land of QSLs**". It seems this aspect of the ham radio hobby will never die. QSLs forever, hi!

## 4U1ITU, ITU HQ Geneva

You may have worked 4U1ITU recently or you may have seen some 4U1ITU cluster spots. The operation is real and the station will be on the air until 3 June. After a two year lockdown, the ITU building in Geneva is back in business. Currently a series of meetings of Study Group 4 (satellites) and 5 (terrestrial and amateur) Working Parties takes place.

The two year lockdown has not been good for equipment and antennas. Lots of technical issues had/have to be solved. As it looks now (but we have to wait and see) 4U1ITU can operate on WARC bands with dipole fixed NW/SE and use the STEPP-IR on 40/20/15/10. A second radio is now being set up for 6 meters including FT8.

## VU4W Andaman Islands –update by Yuris YL2GM

25881 QSOs in the log. Weather has changed again – no more sun. Locals say that monsoon period has started. Will pay more attention to lower bands next days. Propagation is not favorable for SSB.
